PEACHES
IGRE PACKING COMPANY.

At this season of the year when fresh fruit is unobtainable except at prohibitive prices, you can still procure from your grocer our tinned peaches which are as good as fresh gathered fruit and as cheap as ever. Although there are several so called "Tigre" Brands, ours is the only one bearing the "Tiger" upon it, and this we can guarantee as being of the very best obtainable fruit.
The process of canning renders these peaches more wholesome than fresh fruit, and they are specially recommended for children and invalids.
We do not consider it necessary to quote testimonials, but ask you to do us the favour to obtain the opinion of your medical man.

ARGENTINE REVENUE IN 1891.

The annual returns published yesterday confirm our predictions of a year ago, that the Finance Minister's estimates would prove to be of a visionary character. The total revenue to Dec. 31st reaches $71,500,000 currency, equal to $19,200,000 gold, whereas the Minister's estimates were $29,000,000 gold. The estimates compare with the actual receipts thus:—

	Estimate $ gold	Receipts $ gold
Customs....	22,000,000	14,800,000
Sundries...	7,000,000	4,400,000
Total.....	29,000,000	19,200,000

The Minister's estimates were exactly 50 per cent too high, and we may expect a similar result in 1892.

In the preceding table gold is taken at 372 (the average quotation for the year having been a fraction under 373,) and at this rate the expenditure for 1891 will be found as follows:—

	$ gold
Interior.....	10,260,000
Foreign Affairs..	550,000
Finance.....	3,310,000
Education.....	1,650,000
War.....	2,480,000
Navy.....	1,560,000
Total.....	19,810,000

Hence it appears that the deficit was only $300,000 gold, which is a better order of things than before.

It is clear, however, that the estimated surplus of $15,000,000 currency which the Government expected, in order to turn that amount of shinplaster notes, was purely imaginary.

DEATH OF EMILE DE LAVELEYE.

Yesterday's telegrams brought us news that Europe had lost one of her greatest economists in the person of Emile de Laveleye. He was perhaps the greatest of his time, his only competitors being Leon Say, Cernuschi and Leroy Beaulieu: since the death of Newmarch and Jevons we have had no English economist of the foremost rank.

Emile Victor de Laveleye was born at Bruges, 5th April 1822; he studied for some time at the College Stanislaus at Paris, and subsequently went through a course of Law at the university of Ghent. In 1848 he devoted himself to the study of economical questions, and his pen has been prolific during the last 40 years. The following is a list of his principal works.

1847, History of the Frank Kings,
1859, Compulsory Education,
1860, The Gold Question,
1863, Political Questions,
1869, Miscellaneous Essays,
1870, Prussia and Austria,
1872, Popular Instruction,
1872, Modern Society,
1873, International peace-tribunal,
1874, Rights of Property,
1875, Prosperity of Nations,
1882, Elements of Political Economy,
1884, Letters on Italy,
1886, The new Balkan States,

In 1864 he was appointed Professor of Political Economy in the University of Liege, which chair he held till his death.

In 1881 he joined the staff of writers to the *Contemporary Review* (London) and about the same time commenced writing for the *Revue des Deux Mondes*, his articles on social and economic questions attracting the notice of all thinking men in Europe. In 1882 the University of Wurzburg conferred on him the degree of Doctor in Political Economy. In common with M. Cernuschi he advocated Bi-metallism, and, however we may disagree from him in his views on this subject, he certainly predicted in 1876 the unexpected and unparalelled fall in prices which took place a few years later. He was like all the leading economists of his time, a staunch upholder of Free Trade. He wrote English with great fluency, and was as popular in England as in his own country and in France.

Considering statistics as the basis of political economy he proclaimed himself from the first appearance of Mr. Michael Mulhall's works his firmest friend and advocate, in the columns of *L'Economiste Francais* and the *Revue des Deux Mondes*, and tended more than any other person to give weight and authority to the *Dictionary of Statistics*, of which he wrote, only a month ago, that it was "a splendid and valuable work." Other economists have at times expressed indifference as to the value of statistical science, but Professor Laveleye regarded it as the key to all financial and social questions.

His health had been for some years precarious, ever since his tour in the Balkans, and he has now succumbed to an attack of Influenza, not having completed his 70th year. Europe has lost a profound thinker and graceful writer, Belgium her most renowned son. His widow and children will have the sympathy and condolence of all who had reason to admire his extraordinary talents and his high integrity.

THE BOYS' ORPHANAGE.

REPORT OF THE COMMITTEE FOR 1891.

The Ladies Committee of the Faby School beg to lay before the public a statement of the working of the institution since the last balance-sheet, dated August 19th., and also since the first foundation.

At the last balance-sheet we had on hand the sum of 7,707 $ currency, and the contributions received from the various benefactors (as shown in the subjoined list) have amounted to 2,462 $, making a total of 10,169 $ to be accounted for. The expenses have been 3,358 $, leaving now on hand a sum of 6,811 $, which shows that the orphanage is in a very flourishing condition.

There are 33 boys in the orphanage and the total expenses during the past 11 months have been 750 $ per month, or less than £ 40 in English money; the average per boy is under 9 pence per day, and when it is remembered that this institution has no house of its own, no endowment, nor any religious order to render services gratuitously, we may fairly claim that the Boys' Orphanage is managed with admirable economy.

In connection with the above we reproduce the following extract from Commissioner Alsina's report dated Sept. 28th.

"Yesterday the Commissary General visited the orphanage which is situated in Calle Cochabamba, alongside the chapel of Santa Catalina. The installation, although modest, is good and the children are neatly clothed, well fed, and properly taught. At present there are 33 boys; those of the proper age being taught in accordance with the programme of the Escuelas Graduadas. Domestic arrangements are under the care of an Irish married couple, who have great experience of similar institutions. Besides the plan of studies already mentioned, the boys are taught English, French and Spanish."

It may be interesting to give a retrospect of the institution since first opened.

Thus it appears that in 7½ months the total working expenses have been $770 a month. There are no debts outstanding, the Committee paying cash for everything. The cash on hand includes a sum of $1,082 paid in advance to Very Rev. Father Freret, for which a deduction of 3 per cent (or the maintenance of one boy) is allowed to the Committee.

We again thank the many kind benefactors of the institution, and we take occasion to acknowledge several munificent Christmas presents, including $100 from Mr. Patrick Ham. There is a sum of $120 on this head not included in the balance-sheet but held by the Committee for future use such as amusements or other special purpose.

OUR LONDON LETTER.

THE RUSSELL MATRIMONIAL SUIT.

(From our own Correspondent)

Dec. 3rd.

An abnormally dull newspaper season is at last enlivened by proceedings in the divorce court. To be sure the case is not a very sensational one. There are no co-respondents; and only one black spot mars the pleadings. John Francis Stanley, known as Earl Russell, son of the Viscount and Viscountess Amberly, and grandson of the famous "Lord John" was pleased to marry so lately as February 6th 1890—last year in fact a Miss Scott, a young lady of 21 who now files a petition for judicial separation on the ground of cruelty. As far as one can judge from the evidence filling eight or ten columns of the papers, Lord Russell's cruelty consisted in pitching his wife's cat up to the ceiling 10 times to "lick it into shape;" and as his lordship observed, as "she ought to be licked into shape." He also kept her four hours standing behind his chair whilst she made entries connected with his business or mechanical fancy as an electric engineer at Teddington. He made her stand in the wine cellar to count the bottles as they were delivered; he at times handled her so roughly as to cause a red mark on her neck and scratches on her wrist from the pressure of her bracelets; he so far forgot himself as to remark to his mother-in-law, Lady Scott, "here is your saintly daughter; you can take her, and she can go to the devil." The first dispute, or at all events coolness between Earl Russell and his wife appears to have arisen out of money matters. Before marriage, Miss Scott had run up bills with her dressmakers, tailors, jewellers, etc., and had debts altogether to the amount of 4,000£. Lord Russell paid some of her bills or gave her the money to do so, but, as he was pleased to say—"he did not think a man could be made to pay for his wife's underclothing." But on the marriage a settlement of £20,000 or more was made on Lady Russell by her friends, and as Sir Charles Russell states on behalf of his client Lord Russell, her fortune was nominally £27,000, but when her debts and her mother's debts and other charges were met, she would have little to receive, and the object of the present case was to exact alimony from Lord Russell's estate in case of a judicial separation being granted. That may be so, but the defence is equally silly with the pleadings of the petitioner. The man, who seems to be a poor sort of make-up, evidently got tired of his wife even sooner than is openly confessed in similar cases, and to save his pocket he accuses her of being hysterical and unhealthy. A plea not fully confirmed by the medical evidence. It is a curious circumstance in this trial that Lord Russell's own family, including the old dowager countess, are against him, and as for the Dick Russells they seem to hate him as he hateth them. We can thus easily understand that what with mothers-in-law, sisters, cousins and aunts the matrimonial kettle of fish soon boiled when the fire was once lit. Even the London populace have taken an aversion to the defendant.

This morning Lord Russell dodged the crowd on entering the Court and Sir Charles Russell proceeded with his speech for the defence, finally imploring the jury not to besmirch a great historic name by returning a verdict for the petitioner.

He attributed her conduct to her being unaccustomed to restraint. One restraint he had insisted upon was that she should not smoke more than six cigarettes in a day. I am grieved to say the Court again adjourned this evening and the verdict must go by the French mail. It is a sad history of married life amongst an idle and morally uneducated class. The sacramental nature of marriage is not assisted by the Solicitor-general, Sir Edward Clarke, and Mr. Coward appering for a petitioner, and Sir Charles Russell, Q.C., Mr. Lockwood Q.C., M.P., and Mr. Inderwick Q.C., Mr. W. S. Robson and Mr. Compton Smith for a defendant. The winter number of "Vanity Fair" contains a coloured picture of all the more notable judges and barristers in the English courts. Your contemporary does not flatter them and they look as Lady Russell might say the "damnedest" lot of thieves unhanged. The socialist Municipality of Paris, I observe, has just passed a law entitling illegitimate children to the same privileges of inheritance as the lawfully begotten. You will not agree with me, but I believe that the Paris men are in the right direction.

ROSARIO.

(From our own Correspondent.)

January 4th

I have received the following letter from a friend who managed to reach his establishment near Bellville to look after the flotsam and jetsam left by the great inundations. His Granja, as he calls it, is situated about a league from the station, and puts one in mind of Mariana's "moated Grange" in as much as it was surrounded with water. By the by, it is a pity that Shakespeare has not told us if the moat that surrounded Miss Mariana's farm house was a wet or a dry one.

Here's the translation of my correspondent's letter:—

Bellville, Jan. 2nd

"Yesterday I got as far as San Marcos on an engine and arrived in front of the Grange, expecting every moment to see floating by houses, cows, mares and haystcaks; but I was agreeably surprised that the buildings were still standing on their foundations, and quadrupeds, as well as bipeds, enjoying themselves as if the deluge was in the Plaza Victoria and not at their own doors.

"On my arrival at San Marcos, I found a number of people from the north flying from the inundations that had ruined Ballesteros and had spread out to an extension of more than eight square leagues; the low parts, such as Ilen, are at the present moment several metres under water. It is almost sure that these waters, now in front of San Marcos and some eight or ten squares to the north of the Granja, following the depressions of the land, will reach the Cañada de San Antonio and be precipitated into the Arroyo Tortugas, producing, in all probability, a great inundation in that quarter.

"On going over the Granja, I found only a small part under water. Half of the alfalfa field is covered with half a metre of water, on an average, and flocks of ducks were amusing themselves round the large stack in the centre. Other stacks in the lower parts are surrounded with water a metre deep, but have not been floated off. In some places the water reaches the lower branches of the "algarrobas."

"I essayed to reach a beautiful little forest of Talas to admire the effect of a sparkling floor of water, "canopied by dense masses of foliage, but I was afraid my horse would flounder into a biscacha hole. The river was running with an extraordinary velocity, with a booming noise and wicked looking waves: where the "barrancas" are high the water reaches their summit; where they are low the river breaks through and inundates the surrounding country. A few inches more of rise and the cattle will have little chance of safety. The buildings of the Grange, I think, are out of danger, as they are fully a metre above the flood; but should the water reach their foundations this will mean that the whole of the department north and south will be flooded. The huge lake between the Granja and the river, generally dry, is of course completely full, and offers a splendid panorama; and as there is no current, the groups of half submerged trees are reflected in the tranquil waters; above all, a grove of enormous "talas," their dense bolls appearing to float on the water.

"This evening the level of the river fell about ten inches, and it is probable it will continue falling, notwithstanding the heavy rains of to-day. From the alfalfa fields towards Bellville it is impossible to proceed; nothing is to be seen but water, trees and the half flooded houses and galpones. The "Almacen del Sancho" has a metre of water inside; the chalet of Satriano, the pretty house of Ortiz, that of Silva and many others are completely surrounded by water, and from what we can see must have several feet inside them. The rapid current running northward has completely destroyed the earth works of the railway and covered all the alfalfares, with here and there the heads of the stacks like buoys on the superficies.

"Yesterday there passed by the Granja three large boats manned by the relief commission from Rosario. Amongst them were the Gefe Politico, the commissary Laure and the engineer Maceras and many others. Notwithstanding that the rowers scarcely moved their arms the boats passed down as if they were propelled by steam. We exchanged a few hurrahs! and we soon lost sight of them. They were on their way to San Marcos.

"This evening there arrived from Cañada de Gomez about 80 peones to commence work on the line, but in the present inundation they can do nothing, and will have to wait for a further fall of the waters. The party is now encamped just in front of our plantations of maize, melons, water melons and pumpkins, and although our hearts at this special moment should be full of charity, still I thought it as well to send Isidro with the dogs and a gun to sleep amongst the tender "choclos" and ripening melons. I know from experience that railway peons have capacious stomachs.

"I do not send you any news of Bellville, as I have none that are reliable, but one thing I can speak of, and that is the heroic conduct of Luis Michel, José P. Lopez and Sr. Mallen, who, from the moment the floods began, got up subscriptions, hired peones, and remained night and day firm at the post of danger, and saved the town with their energy and tenacity.

The river is still falling."

LATEST FROM MONTEVIDEO.

Jan. 5.

Telegrams from Yaguaron report a conflict between the local and the Brazilian authorities on the frontier. The feeling of animosity is intense.

The death is announced of Dr. Candido Irazusta.

The Uruguayan Government has instructed its Minister in Rio to open negotiations with the Brazilian Government for the suppression of the cattle tax on the frontier. It is very probable that the Brazilian Government will consent to suppress the tax.

The Committee of the Chamber of Deputies met to-day to study the bill for the Unification of the Internal Debt.

The Cadets of the Military College are off on a trip up-country. They go as far as Salto.

Advices from Rio state that the Chamber of Deputies unanimously declined to accept the resignation tendered by Deputy Assiz Brazil during Marshal Deodoro's government. Mr. Assiz Brazil, therefore, returns to the Chamber. An active propaganda has been begun to raise Dr. Moraes, Senator for San Pablo, to the Presidency of the Republic.

There is nothing new reported from Flores Island. All the passengers on the Island are in good health.

The stock of Porto Alegre tobacco here has been bought up for Buenos Ayres.

PROVINCIAL NEWS.

It seems that the San Juaninos are not radicals at heart; they displayed a killing indifference to Dr. Alem during his stay in that historic province. At the banquet given to the radical leader on Sunday last at the Gran Hotel de las Provincias, his torrent of political eloquence was interrupted by dissentient voices. The doctor said that the supreme moment was approaching and he counted on the support of the valiant, the intelligent, the progressive, the enterprising, the noble-minded, the generous hearted, the out-spoken, the free-Government loving, bad municipality-hating, and so far non-bankrupt San Juaninos. This did not go down at all. Cheers for General Mitre were raised, and Dr. Alem sat down abashed but by no means daunted. Never had the radical chief appeared to such advantage. The inmost and noblest feelings of his democratic soul flashed through his dark eyes, and his long beard, which had so often bent to the caresses of the breeze of popularity, waved gently to a sportive zephyr which played between an open door and a window and gave him a cold. "Liberty!" he exclaimed in a voice whose hoarseness bespoke an approaching attack of influenza, and at the same time some unknown wight flung through the aforesaid open window a fly-sheet containing some infamous and scurrilous remarks, dictated by personal vindictiveness, inspired by low grovelling malice, and couched in a language which a politician, even in the most exciting moments of his eventful career, would have scorned to employ. Dr. Alem and his party bolted. They are at present in Mendoza, which is a splendid place for people suffering from colds and pulmonary complaints.

We find nothing but politics in our provincial exchanges. The combat is deepening, the struggle is culminating. In Rioja, the very last place in the world where we should expect to find political ebullition, there is a tremendous row going on. Manifestoes upon manifestoes are being issued. The Union Civica Popular boldly declares that the election of Governor Torres is null, and that the present Governor is ruling in open violation of the local constitution. The Governor and Governor-elect and their partisans deny this, and the sovereign people are almost driven out of their senses by the din of the political "chicharras," a din that always means great heat, whether in meteorology, or politics. But, as Burke said, the silent ruminating oxen are the true occupants of the field, although the invisible crickets and grasshoppers make all the noise. And so it is in Rioja and in every other province; the sovereign people is a bullock. It bears the yoke, which makes the comparison all the more accurate. So long as there is no fighting, it is all right. We can put up with the deafening din. But if it should come to a collision and a fight, then all we can do, in our pacific heart, is to hope that the contending politicians may fight like grasshoppers and leave nothing but their tails in the field, that is no vanquished nor victors.

CRICKET.

ADELA C. C. v. LOMAS ACADEMY ATHLETIC CLUB.

This match was played on New Year's Day at Mr. Dodds' estancia at Adela, and resulted in a win for Lomas by six wickets.

The visitors were driven over from Chascomus and a start was made by 10 o'clock with 13 players aside.

At the close of the 1st innings both sides were very level, Lomas heading the score by 3 runs. In the 2nd innings the Adela team were got out for 68 runs and Lomas succeeded in reaching this score with six wickets to fall.

Reid, Anderson and Tabor all batted well, Anderson being given out on a most cleverly held catch by Frost, right on the boundary.

The bowling on both sides was good, that of W. Greig being much admired.

At the end of the magnificent luncheon provided by the Estancia, a hearty vote of thanks was returned to Mr. Dodds for his great kindness and hospitality.

The scoring was as follows:—

THE LATE SIR WILLIAM WHITE.

This distinguished diplomatist was son of Arthur White, a gentleman in the Consular service, and was born in 1824. He was educated at the Isle of Man College, and afterwards at Trin. Coll. Cambridge. He began life as Vice consul at Warsaw, where he married a Polish lady of rank, and was promoted in 1864 to be Consul at Dantzig.

In 1875 he was sent as Charge d'Affaires to Servia, where he displayed such skill in treating Oriental questions that he was summoned to take part in the Conference at Constantinople in 1876-77. A year later he was named Envoy Extraordinary to Roumania, where he remained 7 years, until in April 1885 he was appointed to succeed Sir Ed. Thornton as Ambassador to the Sublime Porte, the Queen at the same time conferring on him the knighthood of St. Michael and St. George.

His knowledge of Oriental politics and consummate tact as a diplomatist were much valued both by Mr. Gladstone and Lord Salisbury. He was a Roman Catholic and was treated as a friend by His Holiness, Leo XIII., at whose request he invariably paid a visit at the Vatican whenever he passed through Rome. His death at the comparatively early age of 67 will be felt in England as a national loss, especially in the present complicated position of affairs in the East.

RAILWAY ITEMS.

Engineer Barabino has reported on an application filed by the City of B. Ayres Tramway Company for the purchase of a block of reclaimed land in the port, between the extensions of Calles Belgrano and Venezuela. The company offered to pay a conventional price for the land. Mr. Barabino, in his report, advises the Government not to grant the application in question, for the simple reason that, according to the law, the reclaimed lands must be disposed of at public auction. He observes, however, that if Congress pass a law "ad hoc," the application of the company may be granted.

The returns of the Central Argentine Railway for the week ended Dec. 27th were at the rate of £8, 2s. per mile against £15, 6s. in 1890. The receipts for goods and live stock during that week were £3,064 against £6,624 in the same week in 1890. The passenger receipts do not shew so pronounced a falling-off, the figures being £2,693 for that week in 1891 against £3,825 in the preceding year.

The Board of Public Works have accepted the plans presented by the Central Argentine Railway Company for the proposed improvements at the level crossings.

The Direccion General de Rentas refuses to close the accounts pending with the East Argentine Railway until that Company forward a statement of the mileage during 1889 and 1890.

The Chairman of the Board of Public Works has sent a note to the manager of the Pacific Railway, calling his attention to the necessity of immediately carrying out the indications made by the technical sub-inspector in regard to the Junin station.

Engineer Schneiderwind has resigned his post as vice-chairman of the Board of Public Works. Mr. Schneiderwind takes a seat on the N. R. Board.

The general railway report for the month of December was laid before the Home-Minister yesterday. We find nothing particularly in this interesting document.

Telegrams from Santiago del Estero state that on Monday last Engineer Agustin Framons signed the contract for the construction of a railway from San Pablo on the Central Northern Railway across the province to a junction with the existing provincial lines.

We note the revival of the project for the construction of a Central Station for the railways, on State lands near the Port. A meeting of the Chairman of the National Railway Board and several railway-managers was held yesterday in the Home Office to discuss the subject, and it was decided to draw up plans and submit them to the Minister.

The resignation of sub-inspector A. Bruquet, Cordoba Railway, has been accepted.

BOYS' ORPHANAGE.

STANDARD Office,
Tuesday.

S. Don Carlos Olmi:

Sir,

The Ladies' Committee of the Boys' Orphanage return you their warmest thanks for your generous donation of 215$; 150$ in cash, half a dozen strong chairs value 50$ and the remaining 15 to be expended in buying a press.

I remain
Yours very truly
Maria Mulhall.
President of the Boys' Orphanage Committee.

EDITOR'S TABLE.

The event of to-day (barring a revolution) is the English Literary Society's trip to the La Plata Museum. If the Clerk of the Weather spoil it, we'll never speak to or of him again, as long as we live. Our scientific reporter being in bed while his teeth are with the dentist for repairs, we hope some member of the Society will kindly do the needful for us in reporting the day's doings. We are requested to say that, should the Clerk prove unkind, the excursion will be postponed till the next holiday.

President Pellegrini hands over the reins of State to-day to Senator Nogues, and starts to-night for Mar del Plata, for the benefit of his health, which, we are glad to hear, is much improved. Letters from visitors at the "Sea" say that there has been very little bathing done as yet.

There was a robbery at the San Isidro Hotel yesterday morning, when some rascal crept into the place during the small hours and got off with $700 in rag-money, jewellery and odds and ends.

The death by drowning of Mr. J. W. Rodd has caused sincere regret amongst his many friends. He was bathing on Sunday at the Tigre and, not being a st ong swimmer, ventured too far out and sank to rise no more.

The Rowsell Fund in our hands now reaches a respectable sum, and we mean to close the list on 20th. inst. and then obtain a draft from the London and R. Plate Bank in favor of Mrs. Rowsell which we shall forward to the Secretary of the Royal Mail Company with a request to transmit it to that lady, along with a list of the subscribers.

The following will play for B.A.C.C. to-day in the match c. Lanus:—J Gifford, E R Gifford, Mills, Walslie, Harker, Anderson, Thursby, Bowden-Smith, Parry, Stokes, Bridges, Lace. Train leaves Central at 10.10 a.m. by Pacific line.

Another Krack in Rio! General Railway Company gone to the wall, and the police ordered to look after the Board of Directors.

We must again beg of our young cricketing friends to be merciful in the length of their reports of games, as we really have not space for the "lingering sweetness long drawn out" of all the matches sent to us for publication. We have condensed those sent to us yesterday, and would feel infinitely indebted to Hon. Secretaries of Clubs, if they could suggest some form of still closer condensation.

A suicide and an attempted one yesterday. The first was a horse-policeman; the second a lovesick youth who put a bullet through his body without doing himself much injury; but the ball fatally damaged an innocent broomstick standing in a corner of his room.

There'll be lots of fun at the Hurlingham Races to-day. The card is first rate, and many fair ladies are going, in all the glory of their summer toggery.

The Minister yesterday issued a decree calling for elections in this city for two Senators and five Deputies. The elections are to take place on Feb. 7.

In connection with the recent change of premises by the Young Men's Christian Association, the Secretary of that excellent institution published the following humorous remarks in the last issue of the "Gleaner":—

"Taking one consideration with another, a Secretary's life is not a happy one, especially when he has to superintend the work of getting into new quarters. He has to be "everything by turns and nothing long." During the month, in connection with my secretarial duties, I have removed furniture; quarrelled with "Naps," borrowed everything except money, swept carpets, dusted furniture, trimmed lamps, spoiled a suit of clothes, offended several members, lost sight of the treasurer and some members of the committee, received complaints—and made them; and yet, to use an expression which the Editor of the *Gleaner* strongly objects to, "I have come up smiling." I don't know why the Editor finds fault with the phrase, except it be, as I strongly suspect, that upon one occasion in the long ago, the Editor did not "come up smiling," but the other man did. I will ask the Editor."

The travelling public may find it convenient to take a note of the fact that the Central Argentine Railway has reopened the service for passengers, parcels and goods from Plaza Once Station to Cordoba.

The Czar of Russia and the Siamese King are among the monarchs who are alleged to ride bicycles. The Empress of Austria has a ladies' safety which she rides with almost as much skill as she does a horse, and the Princess of Wales moves about on a tricycle.

The report of our distinguished countryman Professor Fitzsimons, Rector of the National College at Corrientes, and now inspecting, as Special Commissioner, all the State Colleges of the Republic, is tremendous in its condemnation of the way in which the National College at Rosario has been directed. As a first consequence, the Minister of Education has sent the Rector, Mr. Eudoro Diaz, about his business, without more ado.

An English sailor named David Duncan, of a British barque now lying in Rosario, was accidentally drowned in the river there on Sunday, while bathing.

Beer, music and electric light—three right good things in their way—draw fashionable crowds every night to Mr. Bickhert's kiosk in Plaza San Martin, the breeze from the river after nightfall making that quarter the coolest in town. There is lots of beer, lots of music, but not enough electric light; but we hear that this defect will be at once remedied. The police have been ordered to remorselessly clear the Plaza of the "half-world" nuisance that had to be bundled out of Calle Florida some months ago.

The race horse Aventurero started yesterday for Rio in the French steamer La Plata. The Brazilian capital is now full of adventurers; and the horse in question is the only respectable one of the lot.

"Though lost to sight to memory dear." An eccentric subscriber wants to know what has become of the Bateman Legacy, as he feels quite out-of-sorts, and as if he had lost his shirt-collar button, without the former daily rows about the concern. Queer subscriber this. We believe everyting goes smoothly for the moment with the unlucky B. L. which is making up its Budget for 1892.

Our unmarried lady readers must not forget that this is a Leap Year, and affords them additional facilities for that change of name which all good and pretty girls have a right to look forward to.

Dr. Alem is expected in town this morning after his flying political visit to the Andine provinces.

The Municipality paid on Saturday $2962 to the lucky owner of the wooden shanty where the late Signor Canaletti died, and which was burned by order of the Lord Mayor. The hut was probably worth the odd 62 dollars; but when Lord Mayors and Health Boards lose their heads with fright, the public have to pay the piper.

Good news for English Society. We are glad to hear that the latest news of Mr. Humphrey Chamberlain is most satisfactory; he will probably return, and he and Mrs. Chamberlain will be most heartily welcomed. *Uruguay News.*

The death is announced, in Rio, of Dn. José Miguel Frias, brother to the late Don Felix Frias. The deceased gentleman settled in Brazil many years ago.

The *Heraldo* of Valparaiso of December 16th published a tremendous leader against U. S. Minister Egan. There are hotly spiced revelations about a "North and South American Construction Company." We'll cheerfully lend the paper to any of our North American subscribers who may wish to have a peep at it.

No use in anyone calling to see Mr. Peter Daly's Champion seed potatoes from Ireland. They looked so appetising that we ate them for lunch yesterday with a double chop, and found them tip-top. Mr. T. Tormey would like to see Mr. Daly about the "spuds" from the old sod, at Messrs. Nelson's office, 186 Calle San Martin.

There is a Pipe-water row in Rosario. The Company have cut off the supply from several "morose" customers; the latter have been forced back on the contaminated "pozo" water, and the *Capital* says that the consequence may be an epidemic.

The Boys' Orphanage begins the year under favourable auspices, as will be seen by the report of the Ladies' Committee in another column. The institution has a large balance on hand, owes nothing, and is receiving contributions daily.

Mr. Lacroze has not yet begun running his steam-tramway cars to Devoto. This is to be regretted, as the Pacific Company does not run enough trains to give the place life. Telephones are to be laid down next week to the quintas of Stoppani, Dellacha, Mulhall and others. The handsome villa of D. Federico Devoto is being enlarged. An hotel is much wanted, as people would no longer go to the Sierras of Cordoba if they once visited Devoto.

The "Club Man" of the *European Mail* gives the following further proof of the dim geographical ideas which even diplomatists at home can boast of:—"Over a year ago Mr. W. H. Haggard, brother of the famous novelist, was appointed British Minister to Ecuador, and a few months afterwards, by dint of diligent study and research, that gentleman succeeded in grasping the fact that Ecuador was somewhere in South America, and that Quito was its capital. In due time Mr. Haggard started for his new post, going by way of Rio. He reached the Brazilian capital, it seems, but could get no further, and he has now returned to England, to look up the routes again preparatory to making another effort to reach Quito. Whether, in going

Messrs. Moore & Tudor, Maipu 163, B. Aires. Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.
Tuesday, Nov. 5.
Large amounts of gold were showered on the ring this morning, but the market resisted the fall and remained very steady. Over 21,000 ounces changed hands at the first ring; the price opened at 86½, fell to 60.70, but closed hard at 60.90. Six hundred sovereigns were sold at 18.90. The dullness in sovereigns is remarkable; for the last ten days the supply of sterling appears to have fallen short, but that of ounces has increased considerably.
There was quite a revival in Patriotic Bonds this morning; about a quarter of a million were sold; they opened for cash at 57.80, rose to 58 70, and closed hard at 58.30. The rate for the end of the month closed at 58.60.
La Plata Cedulas experienced a fresh fainting fit to-day; gold A fell to 18, K closed at 30, L at 31, M at 29.90, N at 30, O at 29.90, and P at 30; the fall was general. Whilst these Cedulas are a drug in the market, the Bonos of the La Plata Mortgage Bank are offering for sale on all sides at 18—but no buyers.
National Gold Cedulas changed hands at 28½—only ten points better than the La Plata Gold Cedula. A few thousand National A paper Cedulas were done at 80—say fifty points better than La Plata Cedulas of the same rate of interest.
Spanish Bank shares closed at 86½—an advance of ½.
The exchange market showed fresh symptoms of weakness this morning. Banking paper on London was quoted at 48½d; private paper was done at 49d. Exchange on Paris was passed at 5.16 to 5.16½. The bulk of the exchange in francs was for German account. It appears that the German artistes entered the wool markets this morning and bought fair amounts, on the strength of advices from Europe that the Buenos Ayres wools had given a higher yield than calculated by purchasers. The French buyers, however, kept aloof this morning.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Messrs. Krabbé & Higgins have moved from Calle Cuyo to No. 655 Calle Piedad.
Messrs. Laborde & Monsegur have sold to Mr. Mendez, the well-known sugar-planter of Tucuman, their splendid properly corner of Venezuela and Chacabuco, 28x40, for $300,000 ⅞. The properly comprises a new house, with cellars, 3-story high, built regardless of cost.
Advices from Uruguay report the sale of three or four thousand salted novillo hides at the Fregeiro saladero in Mercedes at 50½ rls. per pesada in the saladero and 51½ rls. placed on board in Montevideo. The tallow of three or four thousand steers is also reported sold at 12 rls. put on board in the Mount. One of the saladeros at the Cerro has sold 2,000 ox hides under salt at 50½ rls. on board.
Wheat from up river is falling in price. The rapid supplies of grain from all quarters and the passive attitude of the millers here, who appear to be well provided, are causing quite a degringolade in prices. Only the other day the current rates were between 17 and 17.50 dollars per 100 kilos; the price is now tottering under 14$.
The R. M. S. Tagus will take from Montevideo on the 7th the 32nd lingot of pure gold turned out by the Gold Fields of Uruguay Co. Ld.; the lingot weighs 453 ounces and represents one month's work at the San Gregorio mine in Cuñapiru. The company turn out as a rule one lingot of this size per month; it has been working 31 months and has provided 32 lingots of the above weight during that time.
The Platense steamer Pomona is posted to leave the Boca to-morrow morning at 10 a.m. for Patagones direct. She will return with a full cargo of wool, hides, skins, salt, etc.
At 3 p.m. it was known that the leaders of the conciliation parties in politics had agreed on a "modus vivendi" that will suit the interests of both factions. The news produced an excellent effect on 'Change and a fall in gold ensued, but it did not prevent another fainting fit in La Plata Cedulas. Bankers, merchants and brokers looked in good humor on the strength of the conciliation news.
The exchange market was a little firmer this afternoon; in francs something was done at 5.17 on Paris, and on London at 49½d. A fair amount of produce exchange was thrown on the market.
Over five hundred shares of the National Bank were sold this afternoon at 20; this quotation appears abnormally low for a stock that can be exchanged for National Bonds under the conditions of the Banco de la Nacion Argentina Act; two National Bank

A decree was issued this evening from the Finance Office in regard to the exchange of National Bank shares. The decree provides that the term of three months allowed by the law shall expire on the 19th inst. for shareholders in this city and 26th inst. for shareholders residing outside the city. Every holder of shares, desiring to avail of Article 35 of the law, must apply in writing to the Public Credit Office within the time allowed by Art. 1 and set forth name and domicile, state the desire of availing of the privileges of Art. 35, the number of shares he desires to exchange. All this must be set forth on stamped paper, which must be presented before 3 p.m. on the days above mentioned, and the applicant must enclose the shares he desires to change. Shareholders abroad may file applications to Dr. Plaza.

The plans of the Directing Engineer of the Port Works for the water passages of Dock No. 3 have been accepted by Government.

The resignation of Engineer Soensson, of the Inspection staff of the Port Works, has been accepted.

At five o'clock it was rumoured that another steamer was en route for this port with yellow fever on board. It would be well if the Argentine Government could close Argentine ports to vessels from Santos and Rio during three months at least, say up to next April.

There was another Cabinet Council today with regard to works to be carried out in the Madero Port: the works in question are mere matters of detail. Nothing definite was resolved by the Cabinet.

The returns of the Custom House today amounted to

	Gold.	$ m/n.

The Minister of Finance has fixed the rate of gold at 350 for Thursday for payment of Customs dues.

Farmers and others of our readers interested in the reproduction and improvement of live-stock should note carefully the number and class of animals to be offered for sale next month by the most enterprising of Argentine breeders, Mr. Francis Meeks. Last year over 1,000 beasts were knocked down by Bullrich & Co. to eager purchasers, whereas we understand that now scarcely one-third of that number will be brought to the hammer, the proprietor being anxious in the interest of his clients to prevent the dangers of overcrowding in the paddocks of 'Paradise Grove' during the hot weather. The horses, which are being daily trained, to the admiration of the neighbors, look much better suited in size and colour for the foreign than the local market; and thrice happy the man who can buy any article to-day in paper to sell in gold. The bulls, chiefly of the shorthorn and Hereford breeds, are not alone chained by the neck, but also tied down by a ring in the nose, and yet it is advisable to 'approach' them as cautiously and respectfully as do the free and enlightened citizens of this republican land when addressing his lordship the Lord Mayor. The rams are of the Lincoln blood, whose flesh and wool are in as brisk demand always as hot cakes on a cold, frosty morning. Such men as Chas, Olivera or Meeks deserve well of the country, for it is not always that their enterprise is crowned with pecuniary success. Messrs. Peña Bros., of Azul, lost so heavily in importing fine stock that now they buy nothing but the best native blood, which, being more hardy and acclimatised, pay better far than their more costly and delicate foreign competitors.

The National Government has named the following gentlemen Justices of Peace of the Capital for 1892 :—

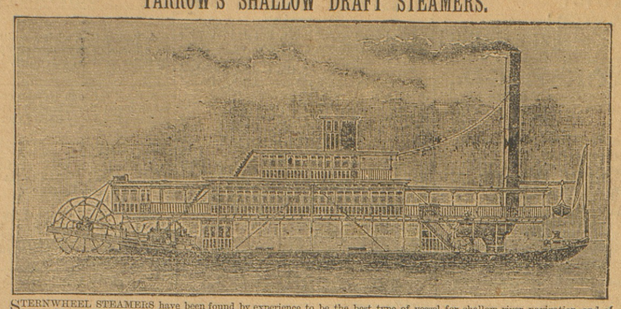
YARROW'S SHALLOW DRAFT STEAMERS.



STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. YARROW have constructed a large number of successful examples for all parts of the world.

Vessels on this system are constructed, when required, to draw as little as 6 inches.

Messrs. YARROW lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.

They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.

For full particulars apply to—

YARROW & CO., Shipbuilders,

TO ESTANCIEROS.

Why use poisonous dips dangerous to both Man and Beast, and from the effects of which Estancieros are continually suffering heavy losses, and puesteros getting maimed, when you can buy

LAIDLAW'S TOBACCO POWDER

which is guaranteed perfectly harmless in use, costs less and never fails to cure the worst bases of Scab

Read one of the latests testimonials :—

Estancia El Ombu

Ramallo, Oct. 21st, 1891

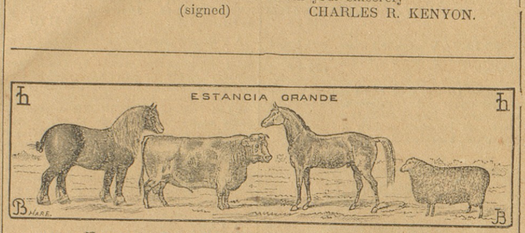
Messrs. Mackill, Murray & Co., Buenos Aires

Dear Sirs

I am **more than satisfied** with the result from dipping with **Laidlaw's Tobacco Powder**, and I may say that so is **Mr. C. Quesada,** owner of this estancia. I dipped the sheep (60.000) twice in **February** and since then have had hardly any work to do from hand-curing and the sheep are **perfectly sound to-day.** The cost of Dipping, including labour, was **$0.2[65] cents** per head or **$26.50 per 1000 sheep.** I have not tried it for hand curing, having a drum of 5 gallons on hand of another dip, and this has more than sufficed for all the hand-curing that has been necessary since **February last.**

I remain your sincerely

(signed) CHARLES R. KENYON.



At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880.

To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Cholerale Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Convictlon that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Feith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION,—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Gentlemen,

After having been in the employ of Messrs MAC CALLUM and Co. and GATH and CHAVES, I have decided to start in Business on my own account.

Owing to the experience I have had in the River Plate, I have every confidence in inviting you to inspect the large and varied Stock of Shirts, Ties, Gloves, Pyjamas, Underclothing, etc., received from the principal manufacturers in Europe, feeling confident that I can supply you with a first class article at a very reasonable price, even in crisis times.

I hope to receive shortly an assortment of Felt and silk Hats, also a large quantity of English Games. Special orders from Clubs for complete outfits on advantageous terms. First Show-Day will be January 6th.

Soliciting the favour of your kind support.

I Am,

Yours respectfully,

JOHN HENRY FRENCH.
